MEMORANDUM FOR: Special Support Assistant/DDS

SUBJECT : Travel Claim - [REDACTED] 25X1A9a

25X1A9a 1. You have requested comments of this Office concerning the claim of [REDACTED] arising out of expenses incurred during his travel from the Headquarters to [REDACTED] which are not proper for reimbursement under the standardized regulations. The papers forwarded are returned. 25X1A6a

25X1A6a 2. The authority granted this Agency with respect to travel and transportation of Agency employees extends only to those officers and employees assigned to foreign areas. The [REDACTED] have been determined not to be foreign area and in consequence travel allowances granted are only those established by the standardized travel regulations. In this case it appears that the Division concerned was experimenting in modes of transportation. As a result, 25X1A9a [REDACTED] being the first to travel under this system which was late abandoned, was delayed for several days in San Francisco, and as a result incurred extra living cost. Even though this Office agrees that a hardship has been imposed upon [REDACTED] as a result of this experiment, we do not perceive a proper legal basis for reimbursement. As stated above, our authority to establish regulations relating to travel and transportation extends only to travel to foreign areas. The claim being otherwise improper for approval under the standardized travel regulations, it is denied. 25X1A9a
